

“One of your biggest worries as a headteacher is safeguarding, but with The Key Safeguarding I have peace of mind that we’re doing everything we should, and more.”

Mark Harrison
Headteacher and DSL
St John the Evangelist CE Aided
Primary School

Why did you buy The Key Safeguarding for your school?

We'd been thinking about buying it for a while, but then we had an incident where some of our pupils began using sexualised language and we needed clear guidance on how best to handle the situation. There had also been a lack of training available over the past couple of years due to the COVID-19 pandemic, and we needed to make sure we were meeting our statutory requirements before our next Ofsted visit.

How has The Key Safeguarding benefitted your school?

Peace of mind

I know that, as a product from The Key, all of the information supplied is accurate - so I have peace of mind that we are covering all aspects of safeguarding, comprehensively and accurately.

Staff confidence

The variety of resources available, especially the videos and scenarios, and the fact that you can tailor them to your setting, mean that staff are more engaged and gain the confidence to handle safeguarding situations faster.

Statutory compliance

Thanks to The Key Safeguarding, we know that we are meeting our statutory safeguarding requirements.

How do you use The Key Safeguarding?

Firstly, we used the sexism and sexual harassment training in a staff meeting to respond to the sexualised-language incident. The rest of our safeguarding training we portion out over the year, with once-a-term sessions. Sometimes we use the resources to deliver face-to-face training, and sometimes our staff access the eLearning courses. The fact that the assessments capture a record of the training completed, makes it so easy to feel confident that our staff are equipped with the knowledge they need to handle future safeguarding scenarios, as well as prove statutory compliance to Ofsted.

Would you recommend The Key Safeguarding?

Yes, definitely. One of your biggest worries as a headteacher is safeguarding, but with The Key Safeguarding I have peace of mind that we're doing everything we should, and more.
