

“The Key Safeguarding ultimately means that our pupils are safe.”

Dafydd Humphreys

Senior Leader

Dereham Neatherd High School

Why did you buy The Key Safeguarding for your school?

When the COVID-19 pandemic hit, we found ourselves unable to deliver safeguarding training face-to-face, or collect evidence of staff completion. Both remote delivery and tracking were needed in order to continue to support our staff to confidently safeguard pupils, and prove to Ofsted that we were meeting our statutory requirements.

How has The Key Safeguarding benefitted your school?

More impact, with less work

People underestimate how long it takes to think up, resource and deliver training. Before The Key Safeguarding, it would take me about 10 hours of work for every hour of training. With The Key Safeguarding, that's now been cut by 75%! On top of that, the quality of the resources means that staff stay more engaged and understand the training content much more quickly than before.

Safer recruitment processes

We've been recruiting a lot of new senior leadership staff, and have used the safer recruitment eLearning course to make sure that our recruitment process meets statutory requirements.

Confidence in staff's safeguarding knowledge

Because it's a product from The Key, you know instantly that you can trust the information that you're passing on to staff. Combine that with the diversity of the resources, the quality of the content, and the ability to track progress and assessments on a dashboard, I now have real confidence in my staff's safeguarding knowledge.

Would you recommend The Key Safeguarding?

Yes, I would definitely recommend The Key Safeguarding. It's up to date, relevant, engaging, interesting, fulfils all the statutory requirements and ultimately means that our pupils are safe.

How do you use The Key Safeguarding?

At our school, we have to do 3 hours of safeguarding training each year, which we break up into smaller chunks throughout the year. We use the INSET pack to deliver training during the September INSET day, and various resources at whole-staff meetings across the terms. We send out factsheets to staff on the Prevent duty or new safeguarding issues which crop up, and we also love the fantastic eLearning modules which staff can complete in their own time.
